

PALI HILL RESIDENTS' ASSOCIATION
BETTER PLACE TO LIVE IN

Date: October 7, 2024

To Whom It May Concern,

I am pleased to write this letter of appreciation for the substantial efforts of Raahil Mullick, a dedicated resident of Cozihom, Pali Hill and an active member of the Pali Hill Resident Association. I have had the opportunity to work closely with Raahil on a crucial issue affecting our neighborhood: noise pollution during redevelopment projects.

Raahil took a proactive interest in studying noise pollution levels at various redevelopment sites in our area, to promote local peace and environmental well-being. His work involved evaluating the effectiveness of sound barriers, and he took the initiative to collaborate with developers to gather noise decibel data, both before and after the implementation of these barriers. He also performed statistical analyses on the collected data, providing valuable insights into the problem.

Raahil's study found a clear correlation between the use of sound barriers and the reduction of noise pollution. His detailed report and thoughtful recommendations were presented to the city's BMC Corporator (local government body) in an effort to mandate sound barriers in all future redevelopment projects in the Pali Hill area. His efforts reflect his deep concern for the well-being of his fellow residents and his strong advocacy for improving our community.

Raahil's work is an excellent example of how one individual can bring about meaningful change through data-driven solutions and collaboration. His leadership, analytical skills, and commitment to advocating for resident peace have left a significant positive impact on our neighborhood. I wholeheartedly support his future endeavors.

Sincerely,

Madhu Poplai

Letter of Recommendation

10th October
2024

To Whom It May Concern,

I am pleased to recommend Raahil Mullick for his work as a social activist in cooperation with the Pali Hill Residents' Association. Raahil presented to me the findings of his study on noise pollution from Pali Hill construction projects. His team recommended the use of sound barriers to reduce noise levels from redevelopment.

Thanks to Raahil's work, we now have a much clearer understanding of how sound barriers can improve the peace and quiet in the city. I have taken Raahil's proposal to higher authorities, specifically the Municipal Commissioner, and they are in serious consideration to implement his idea not only in Pali Hill but all across Mumbai. On behalf of the BMC, I thank Raahil for his efforts.

Sincerely,

Swapna

Mrs. Swapna Mhatre
MCGM Corporator - Ward 100 | President - BJP North Central District Mahila Morcha
